Information about the service

What is the service?

Aussie Broadband's 4G Broadband Backup service is a 4G option to supply internet to your modem in the event of a disruption to your regular internet connection.

Where is it available?

It is available anywhere where nbn® or OptiComm has been rolled out. This mobile product of Aussie Broadband provides a 4G coverage footprint of 98% & 4G quality will vary based on location. It will use our existing logic and be determined on a case by case basis based on Optus coverage.

What do I need to access the service?

You will need:

- an existing and active Aussie Broadband nbn® or Opticomm connection.
- An NL19Mesh modem supplied by Aussie Broadband at a cost of \$240.

What is included?

Features of this service include:

- a SIM card to be used in the NL19Mesh modem.
The SIM card does not include any voice, SMS allowance or MMS allowance.
- the modem will come pre installed/configured.

Do I have to bundle anything with the service?

You will need an existing and active Aussie Broadband nbn® or Opticomm connection and an NL19Mesh modem supplied by Aussie Broadband. The cost of this modem is \$240

Minimum term of the service

There is no minimum term for this service – it is month-to-month.

Qualifications

Please note that this service may be restricted and/or cancelled if:

- You fail to pay your bill.
- You are abusive to our staff,
- You breach our terms and conditions or our fair use policy, available at aussiebroadband.com.au/legal.

Information about pricing
