Information about the service

What is the service?

Aussie Broadband's VoIP phone service uses your broadband (internet) to provide a phone service to your business, instead of a standard phone line.

Where is it available?

This service is available at any premises inconjunction with an internet connection.

What do I need to access the service?

You will need:

- An active broadband service.
- A VoIP adapter or an approved router. Please note that Aussie Broadband does not supply UNI-Vphone services or 'Fiber Phones'; all Aussie Broadband VoIP services will require an Analogue Telephone Adapter (ATA) or a Modem/Router with a built in ATA.
NOTE: Most handsets will plug into your VoIP service, but we cannot guarantee your existing handsets will work.

Minimum term of the service

This service is month-to-month with no fixed term.

What is included?

Features of this service include:

- Call waiting
- Voicemail

What is not included?

Hardware and some calls, see table below for call charges.

Do I have to bundle anything with the service?

No, you don't have to bundle anything with this service.

Qualifications

Please note that this service may be restricted and/or cancelled if:

- You fail to pay your bill,
- You are abusive to our staff,
- You breach our "fair use" policy (available at <https://www.aussiebroadband.com.au/legal>).

Aussie Broadband does not provide access to Premium call services such as 1900 numbers.

By default, access to International numbers are blocked to prevent bill shock. You can request access to International numbers by calling our customer service team on 1300 880 905 once your VoIP service is active.

This service does not include a battery backup power supply for either OptiComm or nbn's® equipment or any customer equipment. This means you will not be able to make calls during a power outage, including calls to emergency services.

All Aussie Broadband VoIP plans have a hard cap monthly limit of \$150. Caps can be increased on application subject to a credit check.

Aussie Broadband is not able to offer priority assistance to phone line customers with diagnosed life- threatening conditions. If you need priority assistance, we recommend you contact Telstra.

If you use a fax machine, EFTPOS terminal, security alarm or medical alert, please contact your device supplier about moving these services to nbn® or OptiComm.

NOTE:

- Premium plan also includes \$15 of 'Talk Time' credit that can be used for 1300 & 13 numbers as well as International calls (selected destinations only). For a full list of International rates, click [here](#).
- Some international destinations are actively blocked because they are high risk, check list [here](#).
- Our current phone plans all contain no flagfall costs, except:
 - 1223 – National Directory Assistance (\$0.715 flagfall inc. GST)
 - 1225 – International Directory Assistance (\$2.145 flagfall inc. GST)

Standardised cost information

A call to a standard national mobile number costs 22c per minute with no flagfall (on our Casual plan), or is free on our Everyday or International Talk plans. *Example: A 2 minute national mobile call will cost \$.44 (on our Casual plan) or \$0 (on our Everyday or Premium plans).*

Set-up fee

There is no set-up fee for this service.

Equipment fees

You don't have to purchase a VoIP adapter or an approved router from Aussie Broadband, but we can provide them if required – see our website at <https://www.aussiebroadband.com.au/business/hardware-devices/> for more information.

Other possible costs

Diversions – diversions are charged at the same rate as outbound calls for the selected plan (e.g. on the casual plan it would cost 15 cents to divert to a landline number).

Exit fee

There are no exit fees for this service.

Changes to your plan

We may from time to time make changes to your plan pricing. If the change is materially detrimental to you, we will provide you with 30 days' written notice.
